Dear Friend,

I have a confession to make:

I went to Georgetown but never studied with Fr. James Schall.

If you know anything about Fr. Schall, you'll understand why I regret that mistake so much.

Fr. Schall died a couple of weeks ago. He was a *legendary* teacher.

But I didn't realize it until years after I graduated.

What finally opened my eyes? Reading him.

A prolific writer, Fr. Schall showed his mastery of teaching in every line he put to paper.

My entry point was his brilliant little book [\*\*\*A Student's Guide to Liberal Learning\*\*\*](#). To honor Fr. Schall, I've made it your Book of the Month.

Do you want to know what books you should be reading? Or what a true education entails—and how to get one?

You'll find the answers in *A Student's Guide to Liberal Learning*. In only 52 pages, Fr. Schall guides you to "intellectual riches that are almost never found in universities or in the popular culture."

In his final interview, Fr. Schall said it was a "gift" to have spent so many years teaching.

But really, he gave *us* a great gift. You'll understand why when you read *A Student's Guide to Liberal Learning*.

I wasted a prime opportunity to benefit from Fr. Schall's wisdom. I don't want you to make the same mistake.

Get *A Student's Guide to Liberal Learning* at the special Book of the Month price of [just \\$4.80](#).

RIP, Fr. Schall. Thank you for teaching us so much.

Best,
