STUDIES INSTITUTE

Educating for Liberty

Dear Friend,

I bet you're a bit like me: you love to read, but you just don't have enough time for it anymore.

When I say "read," I mean *really* read—not scanning an article on my phone.

Immersing myself in a great book? That's a lot harder these days.

Which is why I feel so indebted to the historian Richard Gamble for creating [\*The Great Tradition\*](#).

In this one anthology you span more than 2,000 years and learn from the West's greatest thinkers . . .

. . . from Plato and Aristotle to Edmund Burke and C. S. Lewis—and dozens of others in between.

I found this book indispensable. **So I'm making it your Book of the Month**, available at [a special 40% discount](#).

*The Great Tradition* doesn't just serve up the great minds of the West. It reminds you of the *point* of all that reading you long to do—the purpose and ultimate value of education.

The esteemed University of Virginia professor Vigen Guroian says this "rich anthology" reveals "the educational wisdom that was foolishly left behind and forgotten."

That's why the American Family Association calls it "a rich resource for families,

teachers, and schools.”

When *would* be a good time for you to fit in more reading?

You don’t have to wait another month, let alone another year. With Richard Gamble as your guide, you can start right away.

And when you order now, [\*The Great Tradition\* is yours for only \\$12.](#)

**Get Your Copy »**

Best,

Jed Donahue  
Editor in Chief, ISI Books

P.S. This [special discount](#) is good only until the end of the month. So [order now](#) and for just \$12 you’ll get access to more than 60 great minds of the West . . .

. . . including Plato, Aristotle, Seneca, Cicero, Augustine, Aquinas, John Henry Newman, C. S. Lewis, and many others.
